Project Title: FY 2010 State Cost Share Program

Pipestone County

Overall Project Description (abstract)

The State Cost Share Program was established in 1977 and is administered locally by the Pipestone Soil and Water Conservation District (SWCD). The State Cost Share Program provides financial assistance to landowners for installing conservation practices that protect and improve water quality by controlling soil erosion and reducing sedimentation. The program provides up to 75% of the total eligible cost of a practice. Often the SWCD combines the State Cost Share dollars with the Federal Cost Share dollars to come up with the 75%. The SWCD provided technical assistance to landowners to install conservation practices by:

- Conducting a site investigation with the landowner
- Working with the landowner to determine the best management practice (BMP) for the given situation
- Surveying and designing the project
- Producing a rough cost estimate
- Providing the landowner with a designed plan for submission of bids
- Performing a pre-construction conference with the contractor and landowner
- Supervising construction
- Certifying completion of the project

Conservation Practices Implemented

Conservation Practices Installed	Number or Linear Feet Installed	Estimated Pollutant Load Reduction (include units)	Landowner Share	State Cost Share Amount
2 -Farmstead Windbreak's		*Prevention *Snow Management *Energy Conservation	\$7,009.00	\$7,009.00
Rain Garden
