

Tree Program

Our district is currently selling trees for the spring of 2010. We sell trees to anyone interested in replacing or expanding an existing grove of trees, or starting a new farmstead windbreak. We also sell trees for snow fences and field windbreaks. You may only want to plant 1 row of trees, and plant them yourself, or you may want us to design a windbreak, plant the trees, and mat them for you. We're willing to work with you. We can come out and assist you with measurements, varieties of trees, & spacing your new trees. There are a few cost share options available. Tree estimates are also available so you know what to expect. Trees generally are delivered by the nursery in April and should be planted shortly after. Trees need to be ordered before December 31st 2009.

2009 Tree Price List

Item	Price	Item	Price
Ash, Green 18-24"	1.25	Oak Bur 2'-3'	1.25
